

# OPERADORES AVANZADOS

# TIPOS DE OPERADOR

- Asignación
- Aritmetico
- Texto

# OPERADORES ARITMÉTICOS I

```
let number = 5; ←  
let numberTwo = 5;  
  
let sum = number + 10;  
let sub = number - numberTwo;  
let mul = number * numberTwo;  
let div = 15 / number;
```

Suma, resta, multiplicación y división

# OPERADORES ARITMÉTICOS II

```
let number = 5; number = 0;
```

```
let mod = number % 2; ←
```

```
let incLast = number++;
```

```
let incFirst = ++number;
```

```
let decLast = number--;
```

```
let decFirst = --number;
```

```
let exp = number ** 3;
```

```
let neg = -number;
```

incLast = 5;

Modulo, incremento, decremento, exponente y negativo

# TIPOS DE OPERADOR

- Asignación

# OPERADORES DE ASIGNACIÓN

```
let number = 5; ←
```

```
// Aritmetico y asignación juntos  
number %= 2; /* --> */ let mod = number % 2;  
number /= 5; /* --> */ let div = number / 5;  
number **= 3; /* --> */ let expo = number ** 3;  
number *= 3; /* --> */ let mul = number * 3;  
number += 2; /* --> */ let sum = number + 2;  
number -= 1; /* --> */ let sub = number - 1;
```

Asignación y asignación aritmética

# OPERADORES DE TEXTO

```
let text = "Welcome";
```

```
// Sin combinar
```

```
text = text + " to knowledge";
```

```
// Combinado asignación
```

```
text += " to knowledge";
```

Solo existe uno, concatenación
